NEW PUBLICATIONS.

These interesting and suggestive lectures ought to e read by every candidate for the Christian ministry ng the practical problems discussed by them are Socialism; the Family, its nature, history, hips and social problems; the Nation, its elopment and problems; the School and its ns; and the Church, its idea, unity, worship problems. On all these great questions brings to bear an acute analytical ciligence and a far-reaching power of synthesis. The on Christian Socialism will perhaps attract ost attention, because the intellectual to the front, and because so many of the clergy studying it with minds open to receive what of truth there is in it. Properly enough, Dr n begins by emphasizing the fact that the fall to grasp this fact that the Bible is largely ded book to them. The present age, however, peculiarly ready to take hold of this idea. trying to put the idea of God into the soial system, and the political reformer is striving infuse justice and righteousness into it. are often mistaken in their ideas, and often it may be, their methods are faulty. It may ever happen that, working in different spheres and em ploying a different terminology, they may sometimes seem to be antagonizing each other. But in spite of dmitted mistakes and seeming contradictions, they are eration of man. The most hopeful fact in the surrent life of the Church is its acute, though perhaps always intelligent, interest in the great questions relating to the betterment of man's temporal lifeons that it once waved aside as being merel

Men seek God to-day, not merely in His private disclosures to the isolated soul, but on the lines of social relationships and social ties. We catch this tone in the teaching which reaches and moves the great masses. It is a mark which distinguishes Mr Moody's preaching from that of the earlier evangelists of our own country. It is heard more or less from all the pulpits, whose message reaches beyond the immediate congregation of the preacher, and helps to shape and mould the public opinion of the land. It is heard in the debates of our religious assemblies, our popular conventions, our ministers' meetings. It is the present-day truth which holds the ear of the thoughtful classes.

Very wisely, Dr. Thompson does not attempt to unfold any doctrinaire scheme of Christian Socialism at contents himself with pleading for the larger and fuller recognition of the social side of the Gospel. As of fact, there is no well-defined science Christian Socialism to-day. Its most thoughtful expenents are united on neither its facts nor its prin iples. They are simply groping their way out of labyrinth of unsolved problems and apparent comehow and some day a way out will be found, and the message of Christianity will prove itself to be in my truth a Gospel of glad tidings to men.
We have not the space to dwell upon the author's ex-

sition of the family and the Church. Much of what he says on these topics is necessarily of an ele-mentary character, and some of his views of the Church are more or less colored by his denominational pre-But admitting all that, it still remain rue that the book is both stimulating and helpful. If theological seminaries generally would provide for annual delivery of such lectures, there would not be so much complaint that young clergymen know a little about almost everything except the world in which they are sent to do their work.
